Ergonomics & Human Factors

2024

22-24 April 2024
Kenilworth, UK

Programme

Monday's events

Masterclasses	Careers Day	Doctoral Consortium
<p>A full day of expert-led sessions, where you can choose two great opportunities for CPD from these topics:</p> <ul style="list-style-type: none"> ☆ Predictive workload ☆ Safety culture ☆ Human modelling ☆ Prospective risk assessment ☆ Qualitative human error analysis ☆ Investigations in healthcare 	<p>A Jobs Fair with opportunities for you to chat about your future with a range of organisations. Also, talks from CIEHF members about work in human factors in a range of sectors. An invaluable day for all those starting out or changing careers.</p>	<p>A chance for PhD and Masters students who have a project underway to get feedback on their research through peer-to-peer presentations. Senior academics will lead the day and give advice and insight about methods, data and writing it all up.</p>
